Report of the Superintendent of Schools

To the School Board of East Kingston, New Hampshire:

I take pleasure in submitting my second annual report as Superintendent of Schools.

Schools differ from year to year in size, ability of pupils and many other characteristics. For these and other reasons it seems advisable to include annual statistics in my report to you.

The present distribution of all pupils who live in East Kingston is shown in Table I. The total is four more than last year at this time, much of the increase being in grade one. Statistics of all the elementary grades are to be found in Table II, the totals of which are in Table III, which also shows the same statistics for the last ten years. It is to be noted that in the last school year the tardiness record is the best in ten years and the per cent of attendance reached last year is, with one exception, also the best in the same period of ten years. Table IV, V and VI are interesting because they show comparable facts in all the schools of the Union. Table VII shows that our record of perfect attendance last year was not so good as that of the previous year, six pupils qualifying as against nine for the year ending in June 1941.

The usual standardized tests of class room achievements were given last June to all the pupils. In no school can all pupils attain top rank. This is, of course, a fact in all phases of life. It is evident, however, on analyzing the results of these tests that unusually efficient and satisfactory work was done last year. Visits to the class rooms tell the same story. Further evidence is found in the performance of our pupils in secondary school classes. As for the present day by day life of our two class rooms, I am glad to report that the pupils are really well taught.

and are well disciplined; they are making good progress in the subjects studied and they are being carefully guided in these war days in wise ways suited to their ages.

I take pleasure in transmitting to you a summary of Miss Beaton's work. Miss Beaton's standards are high and her ability to arouse enthusiasm in both pupil and teacher is noteworthy. As you know, the public musical performances of the schools furnish the best evidence of this.

Mrs. Cooper has rendered her report on the work which she does as our school nurse. Her work is a protection to the health of our children and the community and the results of her efforts are evident on any casual visit to the schools as well as in the formal report which accompanies this.

Mr. Baldwin and Mr. Richardson have heavy responsibilities in the education of our children. Their duties are carefully and efficiently discharged, they deserve our praise. War time conditions and restrictions affect both janitors and bus drivers in unusually important ways and add to the time and attention required and the officers deserve our praise.

All schools are affected by the present war conditions, perhaps ours in Union No. 16 less than those in many other section of the country. In spite of extra work and some unusual difficulties that arise, we in this Union have so far been able to carry on our schools in a fairly normal way. However, I am sure that the children in school now will always remember the war posters, the sale of Victory bonds and stamps, the collection of scrap, the great and rapid changes in geography, the new emphasis placed on history and many other additions and changes in their school life which result from the present world situation. When we think that all young men headed to the four corners of the world, with healthy bodies, clear eyes, fine ideals, sincere patriotism, full of energy and common sense, were lately in our schools we can again be proud of the

American public school as one of the builders of the true democracy which we are defending.

The past year will always be notable for the ease and efficiency with which on many occasions teachers, school board members and other citizens all over the United States aided the war effort by registering users of war ration books for the Office of Price Administration. All those assisting in this project share in the thanks of the government for this service.

With deep appreciation for the support and interest of the Board and of the parents of our pupils, this report is

Respectfully submitted,

CLIFTON A. TOWLE,
Superintendent of Supervisory
Union No. 16.

Report of the Supervisor of Music

To the Superintendent and School Board of the School district of East Kingston:

I hereby submit my report of the activities in music.

The time allotted to East Kingston each week is one half hour for each room.

In grade one and two singing is taught entirely by note with as much individual help for the uncertain singers as the time at our disposal will allow. There seems to be quite a high percentage of these this year. The note songs are simple songs dealing with subjects within the child's interest. The purpose of these is to help the child find his singing voice, to form a foundation upon which to build note reading and to give pleasure.

In the third grade reading is begun. We alternate occasionally with a note song to help maintain spontaneous singing and to have some songs to sing from memory. We have an excellent new text for this group.

In the upper grades all the songs are read and sung, mostly in two parts. Quite a large number of the older boys are non-singers and this makes high quality singing hard to attain. However, the singing group admitted to the fifth grade is unusually good.

Music appreciation or lessons in listening have been carried on by means of the phonograph and records. It is impossible with four grades in a room to carry on all phases of music education but listening seems to have become increasingly important in this age of radio.

I wish to thank Mrs. Hillrick and Mrs. Chadwick for their fine co-operation.

Respectfully submitted,

JOAN A. BEATON.
